Part I Introduction

Le Zöhæň est une langue draconienne, parlée principalement par les wyvernes et les drakes. Les dragons et autres reptiles n'ont pas de voyelles, d'où l'absence totale de voyelles arrondies et de consonnes labiales.

Part II Phonologie

Voyelles

	front	near-front	central	back
high	i		1	M
near-high		I		
high-mid	e		$@ \setminus$	
low-mid			3	V
low	a			Α
	'			
	front	near-front	central	back
high	front	near-front	central í	back u
high near-high		near-front	central í	
•		near-front ì	í	
near-high	i	near-front ì	central í y ë
